## Bishop's Tree and Plant Factory

Grower of and dealer in nearly everything

Located at DEL ROSA HEIGHTS

PHONE.. SAN BERNARDINO 9483

### BISHOP'S NURSERY

is located in Del Rosa Heights (the best climatic conditions to be found in San Bernardino Valley). The tenderest growth on lemon trees has never been touched, except in the freeze of 1913. Avocados are growing and bearing heavy crops. The view of the beautiful San Bernardino Valley lies before one as a massive checker board upon which the many residents are playing their game of life. You may look also upon the massive, towering mountains that put their peaks above the clouds and in the winter crown themselves with a beautiful blanket of glistening white.

To find the place go on Highland Avenue, turn north on Del Rosa avenue, and east on Echo Drive to the second place; then drive north to the house between two palm trees. We will be pleased to beautify your home and give you better health.

### WOLF'S SUPERIOR SERVICE STATION

Corner Base Line & E Sts.

Phone 1021

Everything for the AUTO

If your AUTO doesn't auto as it ought to, we will make it auto as it ought to.

---

PLEASE KEEP THIS BOOK. IT  
CONTAINS VALUABLE INFOR-  
MATION FOR EVERY FAMILY

The Farm Bureau stands for all forms of agricultural progress.

## A WORD OF EXPLANATION about this CATALOG:

While some people were sleeping, others going to the shows, reading good books, automobiling, etc., my wife and I have been printing this catalog; it is home-made. We have never had any previous experience, so you will read some parts with difficulty, but we hope to do better next year.

My father and mother, with loving hands, have folded them.

We wish to thank those who have advertised with us and hope that more will do so next year, as our rates are very reasonable.

## GREETINGS

I extend this greeting to you.  
And say, "How do you do?"  
I hope you are feeling fine.  
And want to plant a grapevine,  
Ornamentals, a tree or two—  
I want to sell them to you.

Please tell me what you need  
In anything, even garden seed.  
Some of my good friends will cry,  
"You haven't found the best place to buy,  
Until you get from Bishop on the hill.  
He extends to you his good will.

He is the homeliest man you ever saw,  
With or without spinach on his jaw.  
But if you will just give him a trial,  
You will find the time spent worth while.  
He lives in an old cracker box,  
And wrong side out he wears his sox;  
His place looks like a fright,  
But you will find his prices right."

Kind Reader:

In this little folder you will find some new fruits listed. I sincerely believe you will be thoroughly satisfied with them. I have spent a great deal of time and money experimenting upon many new fruits and propagated only what I consider to be valuable for you to raise.

I try to be very careful not to recommend or advertise anything I would not plant myself.

VISITORS ARE ALWAYS WELCOME.

We gladly give any information, whether you buy from us or not. I generally learn from others as much as they learn from me. So come, let us get acquainted and exchange ideas. If you cannot come, write and tell me your wants, or telephone San Bernardino 948-3.

## EXTERNAL CANCERS

We will give you the medicine for removing an external cancer in nine days after it is applied. You pay nothing until after it comes out, and then we leave it to your conscience to pay us what you consider it right. Hundreds of cancers have been removed by this secret, and we have never heard of one coming back.

If interested write to us, and you will find that we will give you the most GOOD HEALTH for the LEAST MONEY, and if you are not satisfied we will give you your money back.

Any tree that does not start before April 10 will be replaced by Bishop's Nursery. All complaints must be in before that date.

Phone San Bernardino 948-3

REMEMBER THIS: If any tree or plant is not satisfactory, please let me know at once. My business is growing because many of my former customers are advising their friends to deal with me.  
You may leave your orders with MEYERS SEED STORE, INDEPENDENT FEED & FUEL CO., for trees and plants.

## WHITE SEEDLESS FIG

### People with False Teeth Made Happy

The first crop has a very few seeds, but the other crops are absolutely seedless. Some of the figs measured nine inches in circumference this year. They are yellowish white, with pink pulp, very mild flavor, firm skin, and do not eat the fingers in peeling as many figs do. There has never been a fig that soured on the parent tree.

We predict a great future for this fig, as it is a good canner, makes excellent preserves, will candy nicely, is also good for fig leather and many other uses to which figs are placed. It bears very young; our trees in nursery now, not over a foot tall, are loaded with small fruit. Prices 50c, 75c and \$1.00.

### BISHOP'S BROWN ISCHA

Very large, brownish fig, good flavor, is not so very sweet, just the flavor many people like; bears very late in the season. A few figs soured on the tree this year. If this tree does not bear the first year, UNDER GOOD CARE, I will refund the purchase price. 50c and 75c.

### BISHOP'S TREE BLACKBERRY

A heavy fruiter; easy to pick; fruit very firm; good shipper; cane very stiff; an upright grower, easy to prune. Ripe in June, July and August. Price, 25c each; 5 for \$1.

### THORNLESS BLACKBERRIES

Cory's Thornless is a sure winner; a prolific grower; an early bearer; good flavor for cooking; will thrive in almost any soil. Many berries grow to be 2½ inches long. Price, 20c each; \$1.50 a dozen; small 10c each.

### LOQUAT

The Gold Nugget is the largest and mildest Loquat I have seen. Some weighed five ounces each; three fill a pint jar. Bears late in the season. I have only seedlings to offer. The parent tree is isolated, so there is no chance of cross pollenization. It is claimed 90 per cent will come true to parent. 50c and 75c each.

### JAPANESE MOUNTAIN CURRANT

Is a new introduction from the mountains of Japan. Will stand quite a little freeze. This grows to be a tree about 12 feet tall, and is literally loaded with small, reddish currants. They make excellent jelly. Each family should have a tree. You will be greatly pleased with this excellent fruit. Do not forget to include an order for one tree for home use. Price each, quart cans, 50c; gallon cans, 75c.

### CITRUS TREES

¾ to ¾ inch, each.....	\$1.75
¾ up, each.....	\$2.25
Navel Oranges.....	Valencia Oranges
Grape Fruit (Marsh Seedless)	
Eureka Lemons.....	Tangerines

## PRICE LIST OF TREES

are given with the distinct understanding that if at digging time we find there are not as many trees, vines or plants as are necessary to fill the order, we will endeavor to procure them from some RELIABLE source, but if they are not to be had Bishop's Nursery will not be held for damages, and will be under no obligation to fill the order.

### BISHOP'S COLOSSAL RHUBARB

In 1909 I began experimenting upon rhubarb and tried to see if it is possible to propagate a variety that would produce more and better rhubarb than any other. By careful selection and close attention, I produced a good variety. My original plant produced 25 pounds of marketable rhubarb at one pulling. One row of fifteen-months-old plants produced at ONE PULLING at the rate of \$2,600 an acre. There may be varieties that produce larger stalks, but I have not seen them. Many of these stalks weighed one pound each, which the stores say is as large as the public will willingly buy.

This rhubarb is excellent flavor, needs no peeling, grows throughout the year. Frost at 26 degrees F. will injure this rhubarb, but it is only about a month before you will have another good picking. I am propagating plants as fast possible, but it is a slow process. I want as many people as possible to try this wonderful producer, so I have decided not to sell over five plants to any one person this year. Prices: Subdivisions, 50c each; seedlings, 25c each.

### AVOCADOS

The Tiger is very precocious, and seems to stand the cold the best of any Guatemalan I have. When five years old it produced 225 fruits.

**Description of Tiger Fruit.**—It is fine looking, pear-shaped fruit, with a rough, thick, purple skin; flesh clear light yellow, of an average Avocado flavor. It weighs from 10 to 17 ounces. It is an excellent tree for the hot interior. Price, each, \$4.00.

The real estate agents and avocado growers near the coast say that we cannot grow avocados in the interior.

I believe that none of them can show any more fruit on any trees (unless it is a Lyon) than I have on my Tiger, Puebla and Fuerte trees of the same age.

Seven assorted No. 3 Rose bushes for \$1.00. Postpaid, \$1.10.

# **Bishop's Trees and Plant Factory**

## **BERRY DEPARTMENT**

### **BURBANK THORNLESS BLACKBERRY**

There are many conflicting reports in regard to the Burbank Thornless Blackberry. I went to see plants that are properly pruned and trellised and find they had a heavy crop of good late berries which compare very favorably with the Himalaya, which has always been considered the best late berry that grows.

They both should be trellised on wires, the same as American grapes, using four of the strongest vines from each plant. Keep them pruned back annually the same as grapes. **DO NOT ALLOW ANY SUCKERS TO ACCUMULATE AT BASE OF PLANT.**

Our Burbank plants are the true bearing variety, and we have had as high as 186 berries on one spike this year. The vines were loaded very heavily, and those who say they will not bear should have seen them.

Vines that were not pruned, next to the pruned vines, have not had a berry all summer. If berries are not produced, it looks like it is the grower who is at fault. 20c each, \$1.50 per dozen.

### **LA FRANCE RASPBERRY**

This remarkable Raspberry was awarded **FIRST-CLASS CERTIFICATE OF MERIT** by the Massachusetts Horticultural Society, Horticultural Society of New York, American Institute of New York and many others.

Also awarded **SILVER MEDALS** by Horticultural Society of New York, Tarrytown Horticultural Society, Connecticut Horticultural Society, etc.

The bushes are rapid, vigorous growers, the canes are strong and erect with fewer spines on thorns than other raspberries.

My plants bore fruit just four months after planting, and we are still picking berries at this writing, Jan. 5, 1922. These berries are firm, about twice the size of other raspberries, wonderful, delicious in flavor. The La France is all "meat"; all berry; not all seeds. I believe you will be greatly pleased with this new introduction. It is claimed to stand shipping the best of any raspberry, which shows it is an excellent berry for commercial plantings as well as home garden. 50c each; \$4.00 for 10.

**Don't plant inferior trees on valuable land.**

Plant **GOLD MEDAL PERSIMMONS** if you are where it freezes. Plant rhubarb and berries between until the trees come

I know a six-year-old **GOLD MEDAL PERSIMMON** grove that produced \$1,000 an acre in one year. One man claimed \$2,600 on rhubarb.

into bearing. This combination will make you independent the quickest of any agricultural business in which you can venture.

\*\*\*\*\*

### **WANTED—FLOWER POTS** **Second-hand**

**All kinds and sizes in exchange for Plants and Shrubbery.**

....A man passed on to the next school room of life the other day owing me a nice little bill. His last words were, "Jesus paid it all." When will I get mine so I can pay my bills?

**In man I have trusted  
Until I am nearly busted;  
Now I must have the dough  
Or my goods don't go.**  
**BISHOP'S TREE & PLANT  
FACTORY**

### **ATHEL or TAMARIX**

This tree branches near the ground and makes an effective windbreak by the middle of the second summer after planting.

It roots deeply and so does not injure crops grown near by. It is the most promising windbreak yet found for the hot, irrigated valleys of the Southwest, and it is in addition a very beautiful evergreen. It is ornamental, grey green in color, of upright pyramidal growth. Young tree with well matured wood was only slightly injured with a temperature of 6 deg. F. Trees four to six years old under favorable conditions attain heights of 40 to 50 feet. Thrives well in sandy soils and also in soils that contain considerable alkali. This wood is prized by the Arabs for construction purposes, as it is not attacked by borers.

Prices, 25c and 50c each; cuttings, \$3.00 per 100.

~~~~~  
**Thoughts are power. Think good thoughts.**

## FRUIT DEPARTMENT

### GENERAL RULES FOR SHAPING THE TREE

All fruit trees should be cut back to about 18 inches from the ground and let not more than four limbs grow to shape the tree. These should be as nearly equally distributed as possible and no two should start out in a crotch as they are liable to split by a heavy wind or a heavy crop. Let these limbs grow about 18 inches, when they should be pinched at the tip and then let two more grow from there. When they get about 18 inches long pinch again. This will give a strong framework for the tree.

All cross limbs must be removed and the tendency as far as possible should be to prune to an outside bud for the first two winters' pruning. For further instructions get ROED-

ING'S FRUIT GROWERS' GUIDE.  
\$ 1.25. I have them.

Be sure to shade the trunk with  
TREE PROTECTORS. 35c a dozen.

### CARE AND PRUNING OF GRAPE VINES THE FIRST YEAR

In July get some stakes about 2 feet long and tie the vines to them with three or four ply baling rope. Cut about one-third of the top growth. This shortening of the canes causes them to become stocky, and as a result of the tying up there are a number of straight shoots, the strongest of which may be selected the following winter, the others being removed.

ROEDING'S FRUIT GROWERS' GUIDE will tell you all about how to take care of your trees and vines from planting to old age. Price only \$1.25. I have it for sale.

### GRAPES

20c each; \$1.50 per dozen; \$6.50 per 100;  
\$40 per 1,000

|                   |           |
|-------------------|-----------|
| Malaga            | Muscat    |
| Thompson Seedless | Mission   |
| Rose of Peru      | Sultana   |
| Zinfandel         | Cornichon |
| Sweet Water       |           |

### EASTERN GRAPES

Each, 25c; dozen, \$2.00; 100, \$15.  
Concord Campbell's Early  
Delaware Niagara

### ARMALAGA GRAPE

The Armalaga Grape is a cross between

the Malaga and the American Armlong. It is a good bearer of large bunches of good flavored grapes. Their time of fruitage can be lengthened until very late in the season by bagging the fruit when full size with paper or muslin sacks. Rooted vines, 30c each.

### SWISS BEAUTY GRAPE

This is a new black grape of recent introduction from Switzerland. It ripens early, is a heavy bearer and brought the highest price of any grape this last summer. It is a good table grape and produces a good flavored wine, so they say.  
Each, 30c; \$2.50 for 10; \$17.50 per 100.

### BERRYVILLE AND GARDENTOWN

No home is complete without a good assortment of berries that bear from early to late.

We also have Tomato, Pepper, Sweet Potato, Cabbage, Cauliflower, Egg Plant, etc., in stock during planting season. If you do not see listed what you want ask for it, and if we do not have it in stock, we will get it for you if possible. We know where to procure many good things, and as cheaply as you can get them.

Dewberries, fruit early, 20c each; 10 for \$1.50  
Early Crandall, second early, 20c each; 10 for \$1.50

Cory's Thornless, third early, 20c each; 10 for \$1.50  
Bishop's Tree Blackberry, mid-season, 25c each; 10 for \$2.00

Burbank Thornless, late, 25c each; 10 for \$2.00

|                               |                         |
|-------------------------------|-------------------------|
| .....                         | 20c each; 10 for \$1.50 |

## FRUIT DEPARTMENT GOOD THINGS TO PLANT

### FOOD

The necessary article of diet to keep the body functioning properly.

At the proper planting seasons I have nearly any tree, plant or berry vine that raises fruit that is good to eat. In order to grow them and decide what is best to plant, it is necessary to do a little studying and thinking. I will get you nearly any magazine or paper you wish.

### Roeding's Fruit Growers' Guide

A book that tells you what you want to know about planting, pruning, cultivating, irrigating, gathering fruit of all commercial varieties of trees and berry plants. I am perfectly willing to give my advice upon any of these matters, but I have not the time, and you are liable to forget; but if

you have the picture and the description of everything before you as it is in this book, you can turn to it any time. Get the best out of your trees by studying this book of 142 illustrations. Postpaid, \$1.25. You can't afford to be without it.

Many other odds and ends too numerous to mention. If possible, come and pick out what you want.

Say it with flowering pot plants. They will keep and not wilt.

### California Cultivator

Is published in California for all lines of California and Arizona farming. Sample copies sent free. Price, \$1.00 per year.

Did you ever hear of the Tom Baron strain of S. C. White Leghorn chickens? They hold a wonderful record for laying. We have a few eggs for sale. Prices on application.

## AVOCADO RECIPES

**To cure Avocados put them in bran or sawdust until soft.**

A few of the common recipes for the use of the avocado:

The avocado is rich in oil, averaging 20 per cent; rich in protein, averaging 2.50 per cent; and high in ash, 1.50 per cent.

Being high in oil and nil in sugar makes the avocado a food of inestimable value for people troubled with stomach or kidney trouble or to the debilitated who are undernourished.

Avocados used on bread, crackers or toast the same as butter, pepper and salt; most people peel, pepper and salt them others prefer it without any seasoning.

Avocados must be soft as cheese or butter to be at their best. Avocados cut in cubes and added to hot broth, soups of all sorts, and gravies, will add a double flavor and value to such. Be sure to try them as above suggested.

Tomatoes are the most congenial vegetable. When you see the avocado blossoms appear, plant tomato vines.

Try avocados with catsup, with baked fish, fowl, meats, canned fish, canned beef.

Avocados are exquisite when mixed with cabbage, sweet potatoes, lettuce, celery, apples, bananas and nuts. Mix with one or more.

Mix sliced avocados with equal amount

of sliced tomato. Make a dressing of one-half cup thick cream, teaspoonful vinegar, one teaspoonful sugar. After seasoning with pepper and salt, pour over the dressing and get busy—you'll like it.

### AVOCADO SANDWICHES

Avocados must be soft before they are good to use.

Mash the flesh of the avocado with a fork (iron one preferred) or press through sieve. Add a sprinkling of salt and spread thickly between slices of bread.

### AVOCADO CAKE

Make a plain layer cake in very thin layers. To one cup of mashed avocado add one-half cup of chopped dates and one cup of whipped cream, sweetened and flavored lightly with vanilla. Spread this between two layers and on top.

### AVOCADO ICE CREAM

One gallon cream, one pound sugar, pulp of sixteen medium sized avocados. Rub avocados through a sieve, add to cream and freeze.

Buy your AVOCADOS from the GROSSMANN who handed you this circular.

To cook a good RHUBARB SAUCE try his way: Make a syrup of sugar and water and when boiling put in rhubarb cut in small pieces. Boil until soft, stir very little and do not cover.

For big crops plant BISHOP'S COLOSSAL. It is a WONDER.

Rhubarb is VERY HEALTHFUL.

Each new day is just **ONE MORE CHANCE** to be **USEFUL** and **HAPPY**.

**ORNAMENTAL DEPARTMENT**  
**WHAT SHALL I PLANT AND WHERE SHALL I PLANT IT?**

**A FEW GENERAL SUGGESTIONS FOR LANDSCAPING  
ON A SMALL LOT**

The planting of shrubs and trees about the home should have a rule to go by, but these few suggestions may help you a little to decide what and where to plant.

Nature herself is the best landscape gardener. By imitating Nature it is possible to make your place more beautiful.

Many people hesitate to beautify their home surroundings because they do not realize with what little expense and trouble their property can be made more attractive and VALUABLE.

The planting of shrubs and trees about the home should have a meaning. Everything should be so arranged as to make the home the center of the picture. In Nature you find no straight lines.

In this little catalog you will find shrubbery and trees listed under their different uses. If there is something you want to hide from view, plant taller shrubbery, such as Australian Tea Tree, Dwarf Bamboo, Pampas Grass, etc. Close to the house Cotoneasters, Pittosporums, Nandinas Coprosma etc. may be planted; and in front of these may be planted a bank of lower growing plants, Sword Ferns, Veronicas, Heather, low growing Cotoneasters, Junipers, Euonymus, etc. On the north side of the house, put Violets, Hydrangeas, Smilix, Camelias, Euonymus, out door Ferns, A cuba, etc.

On the sunny sides put the plants that will stand the heat. You will find these listed elsewhere.

It is well to have a nice hedge around the place, or to divide two plots of ground. Most people neglect to beautify the back yard. (?)

Plant a few of the low growing trees, palms tree ferns, evergreen trailing plants, etc., so when your friends come from the East they will admire your place and California.

**DO YOU KNOW THAT SHRUBBERY ENHANCES THE VALUE OF YOUR PLACE MORE THAN OTHER INVESTMENT?** If you do not believe it, ask any real estate broker.

Please save this little booklet. It may come in handy some time. I have listed only a few of the trees and plants that I have on hand. My suggestion to you is: Get your plants early because there are not enough to supply the demand.

**TO THE PERSON WHO WILL GIVE THE THREE BEST  
ANSWERS TO THE FOLLOWING QUESTIONS I WILL  
GIVE \$5.00 WORTH OF PLANTS ON APRIL 1, 1924**

**What is the SOUL?**

**What is the SPIRIT?**

**Where does THOUGHT originate?**

You do not have to buy anything to compete for the prize.  
and you can choose your plants.

---

**The BEST EDUCATION is to be HONEST, GOOD NATURED, TEMPERATE, and treat your brother and sister man as you think they should treat you. If they do an unkind act, it is lack of EDUCATION.**

## ORNAMENTAL DEPARTMENT

In planting shade trees along the curbing dig the holes at least four feet deep and throw the top soil into the bottom of the hole. The poor soil which has been dug from the bottom should be used on top. This is done so as to give the roots a chance to go deep and not raise the sidewalk. Water heavily in a large basin, so as to soak deep and draw the roots down.

### WHAT SHALL I PLANT AND

### WHERE SHALL I PLANT IT?

#### EVERGREEN ORNAMENTAL TREES

|                          |               |
|--------------------------|---------------|
| Acacia Baileyana.....    | 50c to \$1.00 |
| Acacia Dealbata.....     | 50c to \$1.00 |
| Acacia Melanoxylon.....  | 50c to \$1.00 |
| Acacia Floribunda.....   | 50c to \$1.00 |
| Acacia Cultriformis..... | 50c to \$1.00 |
| Camphor Tree.....        | \$1.50 each   |
| Castor Beans.....        | 50c           |
| Cerantonia, Carob.....   | 75c           |
| Grevilla.....            | 50c           |
| Jacaranda.....           | 75c           |
| Magnolia.....            | \$1.50        |

Hot weather is the best time to plant all evergreens.

#### LOW GROWING EVERGREEN SHRUBS FOR SINGLE SPECIMENS OR HEDGE WORK

|                                         |               |
|-----------------------------------------|---------------|
| Abelia.....                             | 40 to 75c     |
| Aucuba Japonica.....                    | 50c to \$1.00 |
| Arborvitae Evergolden.....              | 50c to \$3.00 |
| Berberis.....                           | 50c to \$2.00 |
| Buxus Japonica (Jap Tubs).....          | \$5.00        |
| Buxus Japonica, 3-inch pot.....         | 25c           |
| Buxus English, 4-inch pot.....          | 40c           |
| Caris Grandiflora.....                  | 40 to 75c     |
| Coprosma Banerli.....                   | 25c to 75c    |
| Eunymus Japonica.....                   | 50c           |
| Eunonymus Golden.....                   | 50c           |
| Gardenia (Cape Jasmine).....            | \$1.75        |
| Grevillea Thelemanniana.....            | 50c to \$1.00 |
| Heather, five varieties.....            | 50c to \$2.50 |
| Eucynmus Japonica (five varieties)..... | 25c to \$1.00 |
| Eunonymus Pulchellus (small).....       | 15 to 30c     |
| Lantana (four colors).....              | 20 to 40      |
| Loniceria.....                          | 10c to 50c    |
| Myrtus (small leaved).....              | 20c to \$1.25 |
| Nandina.....                            | 75c to \$1.00 |
| Pittosporum Cressifolium.....           | 50c to 75c    |
| Rhepsolepsis (Fine S. S.).....          | 50c to \$1.75 |
| Veronica Buxafolia.....                 | 15c to \$1.00 |

#### TREES SUITABLE FOR NARROW PARKINGS

|                         |                   |
|-------------------------|-------------------|
| Catalina Cherry.....    | 75c up            |
| Italian Cypress.....    | \$1.00 up         |
| Acacia Floribunda.....  | 75c up            |
| Acacia Baileyana.....   | \$1.00 up         |
| Camphor.....            | 75c up            |
| Casuarina Stricta.....  | \$1.25            |
| Carob.....              | 25c up            |
| Jacaranda.....          | 50c up            |
| Ginko.....              | 75c up            |
| Chamerops Excelsia..... | 75c up            |
| Cocas Plumosus.....     | \$2.50 to \$50.00 |

#### TREES SUITABLE FOR WIDE PARKINGS

|                         |           |
|-------------------------|-----------|
| Arizona Cypress.....    | 5c up     |
| Acacia Eelbata.....     | 75c up    |
| Acacia Melanoxylon..... | 75c up    |
| Carob Tree.....         | 25c up    |
| Magnolia.....           | 75c up    |
| Sycamore.....           | 50c up    |
| Texas Umbrella.....     | 75c up    |
| Fan Palm.....           | \$1.00 up |

#### EXTRA WIDE PARKING

|                            |                   |
|----------------------------|-------------------|
| Cedrus Dodar.....          | \$1.00 up         |
| Cocus Australis.....       | \$2.50 to \$10.00 |
| Phoenix (Date Palm).....   | 75c to \$5.00     |
| Elm.....                   | 75c up            |
| Arizona Ash.....           | 25c up            |
| Pittosporum Undelatum..... | 25c up            |
| Pottosporum Nigricans..... | 60c up            |

#### CONIFERS

|                                         |               |
|-----------------------------------------|---------------|
| Arborvitae Evergolden.....              | 50c to \$2.50 |
| Arborvitae Pyramidiis.....              | 75c           |
| Cedrus Deodora.....                     | 60c per foot  |
| Italian Cypress (cuttings).....         | 75c foot      |
| Italian Cypress Seedlings.....          | 25c each      |
| Lawson Cypress.....                     | \$1.00        |
| Sequoia (California Redwood) small..... | 25c           |

Conifers should be pruned very little, if any.

Keep your TEMPER—nobody wants it.

One thoughtless moment of ill temper has sent many a man to the gallows.

| Lantana .....                             | 25c              |
| Pampas Grass .....                        | 50c              |
| Poppy, Burbank's Everblooming, each ..... | 25c              |
| Salvia, each .....                        | 15c              |
| Sedum (Hardy, flowering) .....            | 25c              |
| Stocks, per 100 .....                     | \$1.75           |
| Verbena, cuttings, each .....             | 10c              |
| Verbena Seedlings, dozen .....            | 35c              |
| Weigelia .....                            | 25c up           |
| Zinnia, per 100 .....                     | \$1.75           |

#### Part Shade

|                                         |        |
|-----------------------------------------|--------|
| Aspidistra Curida .....                 | 50c    |
| Asparagus Plumosa .....                 | 50c    |
| Begonia Rex .....                       | 25c    |
| Cyclaman .....                          | \$1.00 |
| Ferns, some varieties .....             | 50c up |
| Frimula Oboconica .....                 | 25c    |
| Violets, dozen .....                    | 40c    |
| Hydrangea .....                         | 50c    |
| Genista fradrans .....                  | 75c up |
| Genista histanica (Spanish broom) ..... | 30c up |
| (Scotch broom) .....                    | 50c up |
| Ferns, 12 varieties .....               | 25c up |

To those who wish any advice about planting ornamental grounds, I will be glad to have my landscape architect, J. W. Bryan, call and give advice what to plant and how to arrange and group trees, plants and shrubbery.

You are what you think yourself to be.

| .....                              | 60c to \$1.00 |

Umbrella trees are grown from seeds and the true Texas varieties are saved and those that revert to the China variety are discarded. It is hard to tell the true strain before they are branched, so we will not guarantee that every one will prove to be

the Texas strain.

Umbrella trees break very easily from wind when the leaves are on. To overcome breaking use a wire and wrap around the limbs at least three feet above the ground.

### FERNS

One reason why ferns do not do well is because they are grown in a glass house where artificial heat is used.

We do not heat our house, and our plants may not look as nice as some others, but they will do better for YOU

|                                 |               |                                 |               |
|---------------------------------|---------------|---------------------------------|---------------|

| Asparagus Ferns (Sprenger)..... | 25c to \$1.50 | Asparagus Elongatus .....       | 25c to \$1.00 |

### PALMS AND BAMBOOS

The climate of Southern California has no equal in the world. It is the mildness of our climate that attracts visitors and new settlers from all over the world. Upon arriving here, these newcomers expect to see vegetation entirely different from that to which they have been accustomed in the East.

Let us make our gardens and paryks typical of Southern California by planting palms and choice evergreens.

|                            |                  |                          |                  |
|----------------------------|------------------|--------------------------|------------------|
| Cycas (Sago).....          | \$2.50 to \$5.00 | Kentia (House Palm)..... | 40c to \$1.00    |
| Chamaerops (Windmill)..... | \$1.00 to \$2.50 | Washington (Fan).....    | \$1.00 to \$5.00 |
| Chamaerops humilis .....   | 2.00 to \$1      | Phoenix (Date).....      | \$1.00 to \$5.00 |

### DARK, INDOOR PLANTS

|                           |               |                     |               |

### Country Gentleman

Is published for the general conditions that exist all over the United States. Tells what the farmers are doing in every state. This also contains nearly \$50.00 worth of stories per year, if purchased from book stores. Sample copies sent free. Price, \$1.00 per year.

Some day you will leave your brain.

body and reputation, and you will step into the next schoolroom of life with the knowledge, experience, character, habits, etc., that you now have, so read and study good books and magazines. Raise and eat fruits, vegetables and nuts. Take good care of this body so it will give you as little pain and discomfort as possible.

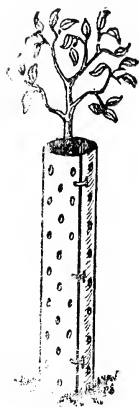

### PLANTING INSTRUCTIONS

DO NOT let the sun dry these roots.

Dig the hole larger and deeper than the spread of the roots. Set tree in, spread roots, throw in loose top soil, water well SHAKE THE TREE so as to remove all air pockets. Raise tree so as to be just a little deeper than it grew.

When water has soaked away, throw in dirt, tamp, and then cover with loose soil. TOP the tree from 12 inches to 24 inches from the ground. USE TREE PROTECTORS.

Tree protectors will save it.

Don't Let the Sun Burn

up a Valuable Tree

It is spoiled for life.

Be sure to shade the trunk with  
TREE PROTECTORS. 35c a dozen.

## EURBANK THORNLESS CACTUS

When it was reported that Mr. Burbank had wiped the thorns off of cactus it took the country by storm, and I was one of those who paid \$5.00 for a single leaf.

In my feeding experiments I will say that I am well pleased with results. One year I fattened my young roosters on cactus and bran.

Mr. Silsbee, who bought them said that they were the nicest roosters that he had bought for their age.

To mix in with hay for goats and cows it is good. One of my neighbors has used it very extensively to feed his hogs and is well pleased with it. If you have spare ground that is not suitable for anything else, plant cactus; it will grow without water—just cultivation is all it needs. Price, 10 leaves 50c; 100 \$3.00. Packing at cost.

## MR. AND MRS. FARM BUREAU MEMBER

She will remember you if you give her a pot plant.

All who have mentioned my PANSIES say that they never saw such nice ones before. Our ZINNIAS are extra large strains and gave excellent satisfaction last year. The violets are long-stemmed Princess of Wales, very fragrant and large.

|                         |     |
|-------------------------|-----|
| ZINNIAS, per dozen..... | 35c |
| STOCKS, per dozen.....  | 35c |
| Hyacinth, s-inch .....  | 50c |

The following assortment of roses are well rooted, but are small, ranging from 12 inches to 24 inches in length, including roots. In these small sizes I reserve the right to substitute unless instructed not to do so; but in case of substituting I will give the same color wanted.

|                              |     |
|------------------------------|-----|
| Lady Hillingdon .....        | 25c |
| Mme. Cecil Bruner .....      | 25c |
| Mme. Edward Herriot.....     | 30c |
| Mrs. A. R. Waddell.....      | 25c |
| Radiance .....               | 25c |
| Sunburst .....               | 25c |

## VALUABLE INFORMATION FOR EVERY FAMILY

TY-CHO ZODIACAL TALKING BOARD  
The Psychic Achievement of the Twentieth Century.

Ty-cho, the Zodiacal "Talking Board," is said to be the most wonderful Occult device ever placed before the public. TY-CHO IS THE ONLY TALKING BOARD in existence that will, in addition to the messages, CAST THE HOROSCOPE. Place Ty-cho Guide upon one of the 12 signs of the Zodiac, then watch the results. It is possible to read for yourself and friends with Ty-cho, as it attracts the higher forces.

With each instrument there is a book of INSTRUCTIONS, giving the psychic interpretation of the 53 symbols.

It is arranged so as to also give Automatic Writings, and SAID TO BE A DIRECT MEDIUM OF COMMUNICATION BETWEEN THE TWO WORLDS, which force Sir Oliver Lodge, Sir Conan Doyle, the late Ella Wheeler Wilcox and scores of other eminent celebrities claim an indisputable fact.

Ty-cho will wonderfully assist one in the development of mediumship. I believe it is the best Talking Board for the money. Post-paid \$1.75.

Clairvoyant Medium and Scientific  
Character Reader

She has helped hundreds of people, and can help you.

For SUCCESS in life, find your right vocation. Readings daily from 10 a. m. to 9 p. m. Message meetings Thursday evenings at 7:30. 875 Court St., San Bernardino, Cal.

You are Cordially Invited

### HEMORRHAGE OF THE LUNGS

Take a half teaspoonful of common salt every hour or until hemorrhage stops. One lady says she had suffered 18 years with hemorrhages of the lungs and that TRUSCOTT'S ANTISEPTIC is the only relief she has ever found.

#### SORE THROAT

To an ounce of water add salt and two drops of TRUSCOTT'S ANTISEPTIC and gargle every hour until relieved. Tie around the throat a slice of fat bacon, upon which has been sprinkled black pepper.

### LOVERS' GUIDE

One reason people have so much trouble in love and married life is because they do not understand each other, and they try to drive the other instead of leading in a loving way.

To win and keep a lady's affections, you must strive to please her by: Being a gentleman. By calling her a sensible little woman. By telling her she is fascinating. By telling her that her companionship improves a man's conduct. By treating her as a lady, and honestly. To be happy in marriage, both parties must try to do their share. No team ever pulled a load if one balked.

Both parties must have good health and the BETTER HEALTH COMPANY can give you remedies that will help you in many ailments.

HAPPY HOMES have nice shrubbery. BISHOP'S NURSERY will help you to fix up your place.

### CONSUMPTION

That dreadful disease met its Waterloo when TRUSCOTT'S ANTISEPTIC came into the world. Many people say it cured them.

**DON'T FORGET—I have BAR-GAINS—Three No. 1 roses for \$1.00. Six No. 3 Roses for \$1.00. Lemons, 10c a dozen.**

## Salvation Army

and its purposes.

To rescue the fallen,  
Feed the hungry,  
Clothe the naked,  
Sustain the homeless,  
Befriend the friendless,  
Save the lost.

During the Great War the Salvation Army was the first on the field and the last to ask for financial aid.

Lend them your support, for they do a great deal of good in the world.

  
log.

Just before going to press with the second edition I received the following from Mr. Rozelle:

"If you want me to write you a stronger testimonial, I will do so. I don't think that one can recommend the medicine too high. I never expect to be without it in the house. One good thing about it, one does not swallow it."

This will do for others what it did for Mr. Rozelle. It is a **CRIME** to suffer when \$2.00 will make you well.

## INVISIBLE INK

Not to be used by Lovers

Linseed Oil  $\frac{1}{4}$  ounce. Water 25 ounces.  
Water of ammonia 5 ounces. Shake well each time before using. In order to read, dip paper in water.

## PRUNING and GRAFTING

Mr. D. E. Furrow has had years of experience in this work.

Call **BISHOP'S NURSERY**, 948-3, if you wish any of this work done.

**You can procure BETTER HEALTH REMEDIES from MACK'S DRUG STORES.**

"Pacific Beach, Cal., Dec. 29, 1923.

"After 18 years of untold suffering, and having tried everything I heard of, went to several states, up 11,000 feet, down to sea level; nothing did me any good.

"One bottle of Truscott's Antiseptic has cured me. I want another bottle to keep in case it comes back."

I received this letter too late to classify, and I have not the person's consent to use his name, so I do not sign it. When this man ordered his bottle, he stated that a friend of his who had Asthma advised him to try it for his Asthma.

It cost this man less than an office call to an M. D. to get well.

Mr. Truscott furnished one M. D. with this medicine during the Flu Epidemic, and he did not lose a single case.

(Signed) **WHIT ROZZELLE.**

## B. H. HICCOUGH REMEDY

This is said with the understanding that if it does not stop any Hiccough within 10 minutes we will refund you the \$1.00 that you pay for it.

**KEEP A BOTTLE IN THE HOUSE.** It may be needed any time, even though the 18th Amendment is in effect. At the present writing there is an epidemic of Hiccough and the doctors do not seem to be able to combat it. Some people are reported to have died of Hiccough.

## CATARRH

**IS A DANGEROUS DISEASE. STAMP OUT THE GERMS AT ONCE.** Catarrh is far more serious than the immediate suffering. Catarrh is the cause of more deafness than any other cause. Many people have lost their voices because they neglected catarrh and bronchial troubles. A person who has catarrh swallows the mucus, and soon has **CATARRH OF THE STOMACH**, which is one of the worst forms of stomach trouble and often proves fatal. Catarrh undermines the health and is the cause of many **NERVOUS TROUBLES.** **FOR THE REMEDY READ WHAT OTHERS HAVE USED.** If you have just plain catarrh, give our **NASAL OIL** for **CATARRH** and **ADENOIDS** a trial. It is only 50c a bottle.

**WE HAVE BEEN TOLD THAT 70% OF THE PEOPLE HAVE PYORRHEA AND MOST OF THEM DO NOT KNOW IT. ARE YOU ONE?**

  
Mrs. Hobbs had us send a bottle to her brother in Centralia, Washington. He has T. B. and he wrote back saying **TRUSCOTT'S ANTISEPTIC** is the **BEST** remedy he ever saw.

**CAN YOU SPEND \$2.00 TO BETTER ADVANTAGE?**

B. H.

#### WART

#### REMOVER

It removed a wart for the manager of the Better Health Co. in about 10 days and it did not get sore. It is recommended to absorb wens. I am using it at the present writing for one, but it is too soon to make a report.

Give it a trial under our money-back plan. Price 25c.

Colly T ornless .....25c

#### TO CLEAN CLOTHES

Alcohol, ammonia and camphor, 1 ounce each. Apply to the grease spot and

Bishop's Tree B. B. ....25c

#### CANKER SORES AND GUM BOILS

Wash the mouth with TRUSCOTT'S ANTISEPTIC, 4 drops to the ounce solution, and work it in and around the teeth. Do not gargle, as it is too strong.

Burbank Thornless .....20c

#### FRECKLE VANISHER

One ounce Salomoniac, 1 ounce Glycerine, 1 pint distilled water. Apply after washing, and the freckles will soon vanish.

#### DEAFNESS

Put about 5 drops of the juice of onion in the ear several times a day. If any pain exists, add a drop or two of laudanum. In about one hour syringe ear well with warm castile soap suds or warm milk.

Gargle and inhale TRUSCOTT'S ANTISEPTIC, as deafness is often caused by catarrh.

#### RASH AND ECZEMA REMEDY

This is the pure juice just as it comes from a weed that grows in California

When it is applied to an itching sore or Eczema it seems to stop the irritation. Give it a trial under our money back plan. Price 50c a bottle.

The Manager of the Better Health Company was bothered with Eczema for years but since using this it is all gone. I miss the good times I had scratching.

LOVE is the keynote of life.

No matter what a person's past may have been, each one has a bright, clean future.

Those who bring SUNSHINE into the lives of others cannot keep it from themselves.

# MANURE FACTS

From careful study and analysis successful orange growers advise the use of High Grade Manures against Cheap Manures.

High Grade Manures may be handled in less bulk and they return more plant food to their users than do cheap manures which return perhaps one-half their cost.

Careful study of the following chart, which is self-explanatory and authentic, will prove the above statement.

## STEER AND SHEEP MANURE

(From Lovelock, Nev.)

|                 | Nitrogen | Ph. Acid | Potash |
|-----------------|----------|----------|--------|
| Analysis .....  | 2 00%    | 1 00%    | 3 00%  |
| Unit Worth..... | \$5.00   | \$1 00   | \$1 00 |

Material 70 ft. to ton, using 5 feet to tree or 143 pounds, cost 93c per tree and is worth \$1.00 per tree @ \$13 ton.

Plant life to tree proportioned 286 pounds Nitrogen, 143 pounds Ph. Acid and 429 pounds Potash.

## AVERAGE HORSE MANURE

|                 | Nitrogen | Ph. Acid | Potash |
|-----------------|----------|----------|--------|
| Analysis .....  | .62%     | .40%     | None   |
| Unit Worth..... | \$5 00   | \$1 00   | \$1.00 |

Material 50 feet to ton, using 5 feet to tree or 200 pounds, cost 65c per tree, and is worth only 35c per tree @ \$0.50 per ton.

Plant life to tree proportion 1.34 pounds Nitrogen, .80 pound Ph. Acid

The condition of the soil is the first thought in producing results and making a change if necessary.

Study of the tree's needs according to its production is the second thought, and with it is the application of fertilizers made from High Grade materials, applied in the correct manner, quantity and time, with the correct analysis.

We are well stocked and equipped to meet all fertilizer requirements on all High Grade Materials, such as Blood, Tankage, Bonemeal, Potash, Fishmeal, Cottonseed Meal, Nitrate of Soda, Nitrate of Lime, Sulphate of Ammonia, Commercial and All Organic Mixtures.

## AT LAST ISN'T IT A BLESSING

That suffering people claim that they have been relieved of the following ailments and have been restored to health?

Thousands of people of all ages are suffering from Asthma, Catarrh, Colds, Consumption, Nervous Headache, Hay Fever, Throat Troubles, Pyorrhea, Bronchitis.

TRUSCOTT'S ANTISEPTIC is sold for only \$2.00 per bottle as we wish to place it so reasonable in price that it will be in every home. This bottle will last about three months and will make over five gallons of gargling solution. If, after using it one month, you are not satisfied with the results, take the bottle with the unused medicine back to the party from whom you bought it and your money will be returned.

TRUSCOTT'S ANTISEPTIC contains no Morphine, Antipyrine, Alcohol or any habit-forming drug.

When your local druggist does not handle our products, they will be sent post paid on receipt of price to any address in the United States or insular possessions.

When you come in contact with a contagious disease, use this medicine very thoroughly.

There are so many causes of Asthma and Hay Fever that we cannot guarantee a cure in all cases, but we are confident that in nearly all cases we can give a great deal of relief.

We feel confident that it is not necessary for us to spend much of your time in reading long-winded articles, because if you are a person in need of help you should avail yourself of this opportunity to get well. Don't let it drag along until it is too late. You have a mission to perform in this life, so you should do all in your power to stay here as long as possible.

Following you will find copies of a few testimonials, and you will please take a little time to read them. We believe that one of the writers will be glad to write you about what it has done for him if you will enclose a stamp for reply, as the testimonials are not paid for.

Hoping to be able to help suffering humanity, we are, very cheerfully **BETTER HEALTH CO., HIGHLAND, CALIF.**

Just send us \$2.00, and we will mail you a bottle postpaid.

### A FEW SIMPLE REMEDIES FOR COMMON AILMENTS

---

#### BED SORES

Beat up the white of an egg and cover the surface.

#### KIDNEY TROUBLE

I believe you will find that B. H. HEALTH TEA is the best remedy on the market. Try it and you will like it.

#### CUTS AND RUSTY NAILS

Apply TRUSCOTT'S ANTISEPTIC. It will hurt, but it will kill all germs, and may save blood poison.

#### BOILS AND PIMPLES

These are caused by impure blood and can be removed by using B. H. T'S HEALTH TEA, as it is a good BLOOD PURIFIER.

Girls do not like to go with boys who have pimples and boys prefer rosy-cheeked (natural—not artificially colored) girls, free from blemishes. TRUSCOTT'S ANTISEPTIC and HEALTH TEA will tone up your system and give you PEP, VIM, and you will feel fine. TRY IT.

#### ULCER

Make poultice of fresh scraped carrot and apply to ulcer or sore two or three times a day, keeping parts well cleaned.

The person is great who causes others to THINK.

TRY ASSOCIATION (Inc.)**

## A FEW SIMPLE REMEDIES FOR COMMON AILMENTS

---

### TO STOP COLDS

Drink all the fresh water you can and as often as you can. Inhale and gargle TRUSCOTT'S ANTISEPTIC as soon as you feel it coming on. When you retire, make a hot lemonade and sweeten with honey; drink all you can. If very severe, make a flaxseed tea with the lemon. A COLD is the forerunner of all nasal and bronchial troubles. BREAK IT AT ONCE.

### BURNS AND SCALDS

Moistened salt will prevent blistering if applied in time. A better remedy is to cover the affected part with a thick covering of wool; in the course of half an hour very little pain will be felt and scarcely any blister will remain.

### GALL STONE REMEDY

Eat no supper and in its place take about a half glass of pure olive oil. Just before retiring take one or two seidlitz powders. This remedy has relieved many cases inside of 24 hours. Apply warm fomentations to seat of pain.

### APPENDICITIS REMEDY

Root of wild yam, one ounce in a pint of water, and boil down to a half pint. Take a teaspoonful every hour until relieved, and then every two hours until cured. To allay the pain and stop the formation of pus, take a flannel cloth and dip it in hot water. Wring it out, drop 10 to 15 drops of turpentine upon it and apply it to the afflicted part as hot as the patient can bear. Repeat until relief is obtained. I have a friend who had his appendix removed three times, so he was told.

### PNEUMONIA REMEDY

Take a large Turkish towel, hold each end and let middle one-third into boiling water. Raise it and twist each hand the opposite way; then quickly lay it flat and fold the two dry ends over the wet part; then place the wet part over the sore place and cover with a dry towel.

Change this every five minutes by having a fresh one ready to put on as soon as the old one is removed. Continue for 30 minutes, then take off and rub in thick with mustard with a hot dry cloth.

In two hours repeat this operation, until hoarseness and tightness are gone. In severe cases it will take 24 hours.

While waiting the first two hours, put the juice of a lemon and a good tablespoonful of cream of tartar in a quart jar and fill with water. Have patient drink all this in 24 hours. Make more and use until better. Keep bowels open with mineral oil; inhale and gargle with TRUSCOTT'S ANTISEPTIC.

### TO STOP BLEEDING

Send us 25 cents and we will send you a package of powder that will stop bleeding from cuts or nosebleed. The manager of the Better Health Company's aunt had bled about three pints from her nose and we could not stop it. When we applied this powder it stopped inside of 30 seconds. EVERY HOME SHOULD HAVE A PACKAGE ON HAND. YOU NEVER KNOW WHEN YOU WILL NEED IT.

### BLEEDING GUMS

We have never heard of a case not being relieved when TRUSCOTT'S ANTISEPTIC was used.

---

GOD and NATURE gave you your body to live in for several years. Take good care of it. The BETTER HEALTH COMPANY will help you regain your HEALTH. If we cannot, we will pay you back every cent that you pay us. Can anything be fairer? Every dose of medicine that is given is an experiment, I was told by an experienced M. D.

## REMEMBER THIS

\*\*\*

TRUSCOTT'S ANTISEPTIC is not taken internally, so it will not injure the digestive organs or conflict with any treatment you are taking under a doctor's advice.

We sell you the STOCK SOLUTION which makes over five gallons for gargling.

One bottle should last one party at least three months.

If you are not satisfied, your money back.

\*\*\*\*\*

Several years ago W. H. Truscott was employed by a company which uses certain chemicals. Being a very observing person, he noticed that no person, to his knowledge, who handled certain chemicals had TUBERCULOSIS.

A few years later he was employed by another company which used another chemical. One day the foreman of another department asked Mr. Truscott if he would take a certain man who had TUBERCULOSIS and give him lighter work. The only place open was the care of the tanks which held this powerful chemical. He gave this man this position. Before long he began to improve and inside of a year he was strong and healthy.

This put Mr. Truscott to thinking. He made a mixture of the two leading chemicals and placed in them healing and soothing ingredients and began experimenting upon his friends. The results were marvelous, but he did not wish to place his medicine upon the market until it had been tried for several years. At the present writing we have never heard of a case of TUBERCULOSIS not being greatly relieved when the medicine was used according to instructions.

Those who used it are so pleased with the results that the demand for it has become so strong that a company has been formed for the manufacture and sale of this wonderful medicine.

It is placed on the market as TRUSCOTT'S ANTISEPTIC by THE BETTER HEALTH COMPANY of Highland, California. We believe

it is the best remedy for nearly all infections of the throat, lungs and nasal passages; because those who use it say it is.

All the members of this company have used TRUSCOTT'S ANTISEPTIC for themselves and their families for several years before organizing the company. We are confident that we are placing on the market a good article for the benefit of those who are suffering from ASTHMA, NASAL CATARRH, COLDS IN HEAD, ADENOIDIS, TONSILITIS, RINGING OF THE EARS, CONSUMPTION, NEURALGIA OF HEAD AND FACE, HAY FEVER, NERVOUS HEADACHE, as a preventative of PYORRHEA and INFLUENZA, and to be used whenever coming in contact with contagious diseases. Those who have used it say that it is the BEST remedy for these ailments known to them.

Enclosed you will find a few testimonials of those who are pleased with the results which they have received. Not one of these has received any recompense for his testimonial except Better Health, so if you write to them, will you please send a stamp for reply?

If you and your family are fortunate enough not to have any of these ailments, will you please hand this circular to someone who is not blessed with good health? I believe that TRUSCOTT'S ANTISEPTIC will place him on the road to better health.

Many are buying this for their friends, and if they thought there was a better medicine they would buy that instead. If you consider their experience of any worth to you, you will do as they are doing. Buy a bottle and use it.

Hoping that we may be of benefit to each other, we are very cheerfully yours for BETTER HEALTH.

W. H. Truscott, President; S. C. Clemensen, Vice Pres.; Clair Bishop, Manager.

## It Keeps Me Awake Nights

### B.-H. TEA

This is a combination of avocado leaves and an herb that was a secret to the Indians. Mr. Truscott was employed by the U. S. Government and gained the friendship of Sitting Bull (the greatest medicine man of his time), and he gave Mr. Truscott many of their secrets.

This tea is to be used the same as any drink at a meal and is very pleasant.

Those who use it say it is a wonderful blood purifier and relieved Kidney Trouble and restored them to **GOOD HEALTH**.

If you feel bad, weak and run down, and if tea and coffee do not agree with you, use **TRUSCOTT'S HEALTH TEA**. You will **LIKE IT**.

To use this tea put a pinch of it in cold water and bring it to a boil.

It is best to sweeten it with honey. But if it is not convenient, sugar may be used.

## "Why Is It"

is the familiar confession of the tea and coffee drinker. The reason is that both tea and coffee contain caffeine—a drug which is the foe to night-time sleep and the day-time energy. **B. H. TEA**, the pure **HEALTH-GIVING** drink, is delicious and satisfying, and free from all the elements which so many users of tea and coffee find disturbing to digestion and nerves.

This contains no stimulant to keep you awake nights. It is a **HEALTH BUILDER**.

If you are not **SATISFIED**, your money back.

Those who use it say that it is a wonderful **BLOOD PURIFIER** and **KIDNEY REMEDY**. Many people have kidney troubles who least suspect it, and do not find out until they have an examination so as to take out an insurance policy and are rejected.

Young people who have pimples, boils, sallow complexions, bad breath, etc., cannot win the affection of the opposite sex. You should tone up your system with **TRUSCOTT'S HEALTH TEA** and kill the **GERMS** with **TRUSCOTT'S ANTISEPTIC**. This combination is nearly sure to put you on the road to **PERFECT HEALTH**, and then everyone will enjoy being in your company.

Married people should use **BETTER HEALTH TEA** as a regular drink at meals. You will find that your health improves, you will become more congenial and you will have a happier home. **TRY IT**.

**NATURE** grew these plants for the benefit of man, and now he should use them. We are placing this on the market at a price so reasonable that it is cheaper to use than tea. If tea or coffee does not agree with you, give **TRUSCOTT'S HEALTH TEA** a trial. It is very pleasant and you will like the flavor.

We will be pleased to mail you a package for 50c. or five packages for \$2.00.

**The Farm Bureau—America's greatest co-operative movement.**

# GERMS GERMS GERMS

KILL them with TRUSCOTT'S ANTISEPTIC.

## Read what OTHERS say.

### HERE IS SOME PROOF

Read these letters, as they tell their own story in the patients' own words. It should help you as it helped them.

947 Myers St., San Bernardino, California.

San Bernardino, Cal., 8-13-1923.

This is to certify that I have used TRUSCOTT'S ANTISEPTIC and have found that it will do all that has been said of it. I had suffered with Pyorrhea for years and had pulled 10 of my teeth. Later hearing of TRUSCOTT'S ANTISEPTIC I gave it a trial and I can truly say that it absolutely cured me entirely.

(Signed) A. W. BENN.

961 Second St., San Bernardino, Cal.

San Bernardino, Cal., Aug. 24, 1923.

To whom it may concern:

My son William Roe was born with chronic catarrh, and he seemed to continue to grow worse until he was 7 years old. Through a friend I obtained a bottle of TRUSCOTT'S ANTISEPTIC, and after using it once he was immediately relieved and slept soundly all night, a thing which he was unable to do before. He is now getting better each day. Giving this testimonial is my voluntary act without remuneration.

(Signed) Mrs. P. F. HOBBS.

417 Valley St., San Bernardino, Cal.

### Spent HUNDREDS OF DOLLARS

San Bernardino, Cal., July 23, 1923.

To any sufferer of Catarrh

I was a sufferer of Catarrh for over 15 years and at times my head and nostrils were so clogged I could scarcely breathe and my throat so dry I would almost choke.

I have spent hundreds of dollars trying to get relief; used all kinds of medicine prescribed by doctors in Arizona, New Mexico, Texas and California and found no relief until I heard of TRUSCOTT'S ANTISEPTIC, and after using it have not been troubled with Catarrh since.

I think it is a wonderful medicine and urge all sufferers of Catarrh to use it for it certainly will cure them. I have used it for over two years.

(Signed) MRS. D. C. TURLINGTON.

1095 E Street.

One person told me that the dentist wanted \$135 to pull his teeth, treat the gums, and make a new set. About two months ago he got a bottle of TRUSCOTT'S ANTISEPTIC, and he told me today (Oct. 16, 1923) that his Pyorrhea is gone and his mouth is feeling fine.

Another man had a tooth pulled and mixed 4 drops of TRUSCOTT'S ANTISEPTIC to an ounce of water and held it in his mouth, and it stopped the after pain and took out all soreness.

A man in Los Angeles says that if he had all the empty bottles of medicine that he has taken in the last 11 years, for Catarrh and Hay Fever, they would reach from his house to Santa Barbara if placed end to end, and that TRUSCOTT'S ANTISEPTIC is the only one that has given him relief.

A lady in Chicago says TRUSCOTT'S ANTISEPTIC is the best medicine she ever saw for Asthma.

We receive many such reports and have had less than  $\frac{1}{2}$  of 1 per cent of the bottles returned so far. Did you ever hear of any medicine giving such general satisfaction?

---

Many more testimonials on file.

~~~~~

If the NORTH WIND makes you feel BAD, TRUSCOTT'S ANTI-SEPTIC will make you feel GOOD. TRY IT.

Give it a trial and if it does not give satisfaction tell us. If it does, please tell others. Our profits are very small; the benefits are GREAT.

## ONE BOTTLE DID THIS

San Bernardino, Calif., Oct. 18, 1921.

I want to tell what Truscott's Antiseptic has done for me and what a wonderful medicine it is. Four years ago I lived in Jefferson City, Mo., and had taken a deep cold and it settled on my lungs and I gradually grew worse. My physician said I could live four months longer in that climate, so my husband took me to Belen, New Mexico, and we stayed there four months, but was so nervous we decided to come to California. After coming here I went through a serious operation and many other things that kept me from getting better. About four months ago I took cold and began feeling badly; had pains in my chest and under my shoulders; was tired all the time. I felt just as tired when I got up in the morning as I did at night.

I would have chills every morning and then my fever would come up and would run from 100 to 101 every day. I had night sweats, couldn't sleep at night, had no appetite. My doctor gave me medicine and told me to stay in bed two or three weeks, but I was getting weaker all the time and I had really given up all hopes and thought I must die. My one prayer has been that I might live to see my children grown and God answered my prayer by sending me this medicine. I have been using it one month and have gained eight pounds. I did weigh 95 pounds and now I weigh 103, sleep fine, have a good appetite and am improving in every way.

I wish this medicine might reach everyone who has that dreaded disease. Words cannot express my gratitude. My husband says this medicine is worth \$100 a drop and he is as thankful as I.

(Signed) MRS. B. P. HATCHER.

125 Eleventh St., San Bernardino,

## ONE YEAR LATER

San Bernardino, Calif., Nov. 14, 1922.

It has been over a year since I began using Truscott's Antiseptic, and I am a better health than I have been for a good many years. I have had lung trouble for about eight years and at times I was worse than others, but I would not give up. About a year ago I took cold and it settled on my lungs. I had a chill every day and then some temperature, became bedfast and really thought my time was near; but I began using this medicine and in a few days I was feeling better and my friends were surprised at the change. I think it a wonderful medicine, and I wish everyone who has lung trouble would give it a trial, and I wish I might be able to go into the hospitals and homes and prove to them what it has done for me. I had prayed that something might be done for me that I might be spared to see my family and this medicine was given in answer to my prayer to our Heavenly Father.

(Signed) MRS. B. P. HATCHER.

602 21st St., San Bernardino, California.

Highland, Cal., Oct. 2, 1923.

To whom it may concern.

This is to certify that I have been using TRUSCOTT'S ANTISEPTIC about six weeks and find that it is a wonderful remedy. I have had asthma all my life and this is the best remedy that I have ever used. I have always been subject to hay fever every fall, but it has not bothered me since I used this medicine.

My teeth hurt me a great deal as if I had neuralgia, and that pain has left me now.

(Signed) W. H. TAYLOR.

---

Patronize those who ADVERTISE in this catalog. I believe they are RELIABLE.

## SHORT BUT TO THE POINT

San Bernardino, Calif., Oct. 9, 1920.

We have used Truscott's Antiseptic as a household remedy for two years, and as a cure for sore throat, cankers of the mouth, hay fever, cold in the head and anemia we find it unequalled.

(Signed) W. J. TILLOTSON.

### IT TOOK ONLY ONE BOTTLE TO DO THIS

About four years ago living at Corbin, Kentucky, my health began to fall, and after an examination by the family physician he diagnosed T. B. Late in 1920 he advised me to go to Southern California. While preparing for the trip was down in bed and unable to go when the time arrived. Finally revived enough to make the trip in December and we came to San Bernardino, Calif. The change of climate helped me some for a while until I contracted a cold and had to take to my bed again, both of my lungs being affected. Temperature averaged at 104, night sweats set in and my feet swelled. At about this stage my husband spoke to a fellow workman about it, who obtained for me a bottle of Truscott's Antiseptic and began using it as directed immediately.

After about ten days the night sweats began to leave and in six weeks left my bed and since the swelling has left my feet and after about four months my weight increased from less than 100 pounds to 130 and am able to do my housework and washing. I can cheerfully recommend Truscott's Antiseptic to any person afflicted with that dreadful disease.

(Signed) DELILIA BENNETT.

### \$2.00 WELL SPENT

To whom it may concern:

San Bernardino, Calif.

I was one of the unlucky ones, and had the flu. It left me with a sore chest, throat and catarrh. I was going down hill fast, and a great many thought I had the T. B. I had about thought so myself. I could scarcely work and was about to try another climate. I was persuaded to try Truscott's Antiseptic, which I did, and I cannot say enough for it, for I began to get better in a few days and gained in weight until now I am back to my old weight and feeling fine; no more signs of T. B. To satisfy myself while in Los Angeles was examined by one of the doctors there and pronounced O. K. and sound as a dollar.

Hurrah for Truscott's Antiseptic! (Signed) CLAUD A. PEARSON.

**SPENT HUNDREDS OF DOLLARS WITH NO RESULTS. AND THIS IS WHAT \$2.00 WILL DO. (THIS LADY BOUGHT HER BOTTLE WHEN WE WERE CHARGING \$5.00 A BOTTLE. THAT WAS BEFORE WE BOUGHT THE INGREDIENTS IN WHOLESALE LOTS.)** One lady paid Mr. Truscott \$10.00 for a bottle after she had used it.

After suffering 18 years with hemorrhages of the lungs I began using Truscott's Antiseptic and found it to be the only medicine that gave me relief. After using Truscott's Antiseptic I gained in health and now weigh 152 pounds. I also have used Truscott's Antiseptic for severe colds and got relief at once. I highly recommend Antiseptic to anyone suffering with lung trouble or colds in the head or chest.

733 L St., San Bernardino, Calif. (Signed) MRS. G. H. KLENK.

### Wonderful results for Asthmatics

San Bernardino, Cal.

I find Truscott's Antiseptic will cure asthma. I had asthma so bad I could hardly breathe and it was impossible for me to breathe through my nose, but I am all right now and it was the medicine that cured me.

(Signed) R. M. CASNER.

San Bernardino, Cal., Sept. 19, 1921.

This is to certify that my daughter Melbourne was suffering with catarrh since she was born, but by using Truscott's Remedy in about three months she has not been bothered with that disease since, and I recommend all those who are in trouble with cold or catarrh in the head to use Truscott's Antiseptic.

(Signed) S. C. CLEMENSEN.

932 Mayfield Ave., San Bernardino, California.

## SONG OF NATURE

There is beauty in the woodlands,  
Where the trees are fresh and green;  
There is beauty in the valleys,  
Where the cattle herds are seen;  
There is beauty in the river,  
As it wends its silvery way;  
And the mountains in the distance,  
Where the flickering sunsets play;  
Oh, there is beauty all around us  
When the love-light fills our eyes;  
There is beauty in the song birds,  
And the soft and azure skies.

How many of us stop to think what these beauties mean to our lives? How many stop to think what our lives would be without them—without these natural beatitudes? How many hundreds, yea, thousands of people travel the world without seeing the beauty in the trees, the rivers, the mountains, the valleys, the plains? God, the Eternal Force of Life, speaks to us, the children of men, from out the beauties of nature.

The mighty ocean with all its restlessness, brings to many a thrill that nothing else can. The majestic mountains speak to others words of wisdom, and knowledge, encouragement and fortitude. To another soul the brooklet babbling over its pebbly bed, whispers softly words of comfort and consolation. Even the vast desert waste has its charms for many. Then what indeed do all these things mean to us? They mean **Inspiration and Aspiration**.

A great writer has said: "**Ambition is earthly; Aspiration is Spiritual.**" **Born of the divine mind, Inspiration, too, is heaven-born or sent.** Contact with nature, then, cannot help but inspire us on to greater endeavors, awaken within a greater desire to be a man among men. Many of our great statesmen received their inspirations to go forth to greater, and still greater achievements—their sturdiness to undertake the ruling and directing of the affairs of the nation was inspired within by contact with the varying moods of nature, God.

Poets, writers, philosophers, artists, musicians, all have gladdened the hearts of the world's people with their inspirations, either on paper or canvas, by having lived close to the heart of nature.

Let us then liken man to the mighty giants of the forest. The seed which has lain dormant in the earth for perhaps months, responds to the warm rain and sunshine of springtime; a tiny weak little treelet appears, and, because the elements are kind, and conditions are right, the treelet becomes a sapling. But the sapling is frail, and not able to withstand to any degree the boisterous wind and rains which whip and lash it about.

When the elements have calmed, the poor little sapling looks more dead than alive. Below the surface of the earth, in response to the warm rays of the sun, little rootlets feel and push their way in the soft soil, drawing to them nourishment, which they in turn send to the sapling, which wakens also to the revivifying influences of the sun's rays, and then the tiny buds begin to swell and soon the leaves break forth.

This excellent article by Mrs. Estella B. Cone, Spiritualist Home, San Bernardino, Cal., will be continued in a future issue. Send for it.

---

## CONCLUSION

Every customer is entitled to receive, in good condition, sound, healthy trees or plants for which he pays. I will replace without charge any trees that are not in good, healthy and livable condition, provided I am notified inside of ten days. If you are not pleased with the goods you receive, I want the opportunity to correct any mistakes.

While I use every precaution to have all plants, bushes, etc., true to name, I will not be responsible for any sum greater than the cost of the stock should any prove otherwise than as represented. And in no case, where for propagating purposes or for filling orders, I secure seeds, plants, scions, cuttings or buds from others, do I assume responsibility or give any guarantee whatever. I guarantee all trees and plants to be in a livable condition when they leave the nursery, but my responsibility ends at that time.

In many cases we have our money tied up three or four years before plants and trees are salable, and our expenses are so high it is necessary for us to sell for cash when delivered. All orders are subject to above conditions and terms.

Yours very cheerfully,

CLAIR BISHOP.

P. S.—If you are not a booster for California, plant something and boost, and help beautify the earth. If I haven't got it, I will get it for you.

The prices listed are for one, but if you buy 10 of ANY ONE VARIETY we give you 10% off.

---

All prices quoted at nursery. However, I will pack and deliver free to depot any \$5.00 order. All small orders will be sent by parcel post. It is cheaper and handier

TREE VALUES

If he be a benefactor to his race who causes two blades of grass to grow where one grew before, how much more of a blessing to the world must he be who plants that which will continue to grow in grandeur and worth, and be a benefit to those who come after us.

There is something grand and something sad in the planting of a tree. It is grand because it is labor performed for and benefit bestowed upon those who come after us. It is sad because our own eyes will not live to see the results of what we do.

Beneath its cooling shade fond lovers will plight their troth and the happy bride will laugh in very joy to be alive and love.

Also the sturdy tread of manhood may be heard and the tottering footsteps of the aged will loiter there.

Perhaps, too, beneath its spreading branches which have grown great, there may be dug, some day, a grave in which will lie in silent sleep the body of one who loved and was loved by others.

Through the chills of many winters and the heat of many summers this tree will glisten in the sun and tremble in the breeze.

Grandier than any dead granite is the lasting monument of a living tree. Sweeter than any music is the rustle of its leaves. Better than the lifeless formula, "Here lies the body," is the fact that somewhere there is a tree that was planted by a hand long ago, so that the living might rejoice in its grandeur and worth.

If you want to do something for the future generations,  
PLANT TREES AND SHRUBBERY.

RETURN TICKET

Del Rosa Heights.

California

I hope I have treated you in such a manner that you will return whenever you have the time and want anything in my line. And also that you will tell your friends and bring them along.
